I am writing this regarding my disapointment to NAB's petition 04-160. The thought of my superior service from XM Radio being in jeoporady has me outradged. Not only do I demand this service from XM, I deserve it and am happy to pay for it. Since I drive cross country for a living, I benefit from XM's traffic and weather channels. This is not available anywhere else.

As mentioned, I pay for this service and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I strongly urge you to reject the 04-160 petition.

Thank you,
William R. Adams
